To the Public.

The Tribune of the 26th inst., under the heading of 'Bank Locks,' contains a brief reference to my locks, and publishes in connection certain certificates under the head ' Lock Picking Extraordinary.' I wish now to say, that the Lock there mentioned, is a Lock differently constructed from any I have sold to Banks; that the kind I have sold and warranted has never been vicked; that the certificate of Mr. David Leavitt, published in the same, does not state the facts truly, but conveys wrong impressions, and leaves out important facts which fairness would require. In the year 1841, at the request of Mr. David Leavitt, I put upon the vault door of the American Exchange Bank, No. 18 Wall-street, in place of one of Andrews' Combination Locks, which I had previously picked while on the same door, one of my Locks, for the purpose of being opened or tested by Dr. Andrews or the American Bank Lock Company Dr. Andrews did not himself make the attempt, but sent his key-maker, Mr. Dunham, for that purpose. After three weeks' effort, at different intervals, he entirely failed to pick it, of which attempt and failure Mr. Leavitt would not give me a certificate, although he seems prompt to do so to others. To show the unfairness of Mr. Leavitt's certificates these facts are submitted. When he removed from No. 18 Wall-st. to the building now occupied by the American Exchange Bank, without consulting me or obtaining my consent, he allowed Messrs. Wadsworth & Smith or the American Bank Lock Company to take my Lock from the door of the vault, examine the interior, and thus give them an opportunity to make a key, as I am informed, and of which I have evidence also from the appearance of the Lock after it came into my hands, the screw-holes being rimmed out three times the size they were when I put the Lock on the vault-door before mentioned; that the said Lock was placed on a chest and taken to Ambov by Messrs. Wadsworth & Smith, and there by them, or under their direction, submitted to such experiments for stealing from Joseph Freneres, of the bark Marcella, lying as they chose, and whether opened fairly or foully I at Pier No. 13 East River, \$70 in bank bills and gold, when in have no means of knowing. After the chest was have no means of knowing. After the chest was returned I saw Mr. Leavitt, to whom I applied for the Lock as my property, who showed me a certificate which Messrs. Wadsworth & Smith requested him to sign, and which he said he had refused, for the reason that, to use his own language, "there was so much hocus-pocus about the opening my Lock at Amboy that he would not sign it, " which certifi- street. cate was drawn in almost the same language and about as equivocal as the one now published.

> As to the certificate of Robinson & Co., it relates to Padlocks, and which they say they bought of my authorized agents; whereas I never had an agent until within a month, and never myself sold them a Lock. As to that of Wm. S. Lothrop, I have only to say, that N. Allen was never my agent, that he, to my knowledge, sold Locks as mine to a Bank in Massachusetts never made by me, and was for that arrested and compelled to refund the money paid him for such Locks-that Messrs. Wadsworth & Smith never called on me to refund, nor ever returned the Locks, but the whole matter was designed and used for the purpose of producing prejudice against me

My Padlocks have never been sold by me or my authority as alone giving entire security to Banks, but as additional guards-that in one instance a Bank in Massachusetts was saved by one of them, by preventing access to the inner Lock for the purpose of being blown up by powder-that, notwithstanding the certificates published, I do not believe my Padlocks have in any instance been opened fairly, but under circumstances and influences designed to to accomplish some sinister purpose-that they give universal satisfaction, and never get out of order, having been sold from Maine to Louisiana.

With regard to Bank Locks, such as I have sold to Banks, I intend in a short time to put one in a place person who shall succeed in picking it, of which due public notice will be given-that to those who choose to make the trial, I mean to exhibit the interior of the Lock, to satisfy them that it is the same

struments for that purpose.

On this occasion they were permitted to make such instruments as they needed to facilitate their operations, but with all their efforts, after expending about six days of labor to throw hich convicts acknowledge are the most difficult to pick. I will remark that we selected those convicts who were su

ties of examining locks of the most complicated workman-ship. He is of opinion that your lock is far superior to any lock he has ever seen, and that it could not be picked, even if the interior structure should be examined by a burgler before an effort should be made upon it for that purpose. I have examined minutely Mr. H. C. Jones's Bank Lock and do consider it a perfect ricce of workmanship in all its parts; I do not hesitate to say that in my opinion there is not a man living that can pick or make a key that will open it without having the lock apart to do it.
